

Private Lessons

“Quality coaches who specialize in technical skill training”

Volleyball private lessons are provided on Fridays and other times by request

Private training lessons are highly recommended for the serious athlete. Players will be evaluated at the first lesson to determine where in the curriculum he/she will begin. The speed at which a player advances in the curriculum is dependent on their skill abilities and their dedication to evaluation/consultation with the players/parents to determine growth.

The experienced coaching staff believes that to achieve visible improvement in volleyball skills, students must devote an extended duration of time to learning and practicing new skills. For this reason, all private lessons are available in 6 lesson packages.

PRIVATE TRAINING LESSONS ARE TAILORED TO YOUR NEEDS AND REQUESTS

- *Work on 2-3 skills in a single session
- *Focus exclusively on a single skill for entire hour
- *Work with a group on a single skill or multiple skills
